I will create an online course on any topic! Complex of services - educational business!

To Business Structures. Corporate Training

Greetings!

Almost any business needs internal training, professional development and retraining of personnel. Of course, you can contact training centers, educational institutions, but they absolutely do not take into account the specifics of the activity. Purely formal training. I propose to consider the creation of a **Corporate University** for the organization of internal targeted training, advanced training and professional retraining. This is the best solution that brings great results. The training will be carried out automatically.

I propose (ready to develop more than 400 online course topics):

1. Development of content for an online course (courses), (text lectures; interactive slides, including SCORM standards; photos; videos; tests, practical assignments, quests, etc.). It can be one course or a whole training complex, a series of courses. The specifics of your activity are taken into account.
2. Installation, configuration and / or content of the distance learning system (Moodle LMS or LearnDash LMS, other platforms). No subscription fees and tariffs.
3. If necessary, I will ensure that graduates are provided with appropriate documents for advanced training or professional retraining.

To form an offer (prices and terms), I need information:

1. What is the topic of the future online course (s)?
2. Who will be the target audience for this course (s)?
3. Technical information on the course (s) - goals and objectives, required level?
4. Desired volume of the course (courses), (in hours, minutes, A4 pages, etc.) (approximately)?
5. What format of the course (s) would you like to receive?
6. Webinars?
7. Need to install, configure and integrate a distance learning system (Moodle LMS or LearnDash LMS, other platforms)?
8. Any other additional services (documentation, documents for graduates, etc.).

Based on the amount of work to be done, after providing the answers, I will be able to calculate the price and determine the time frame. Please write the answers to the above questions - aldem@coursemaker.icu. Working languages - Russian, English. There is a possibility of development in other languages.
