

COURSEMAKER.ICU

I will create an online course on any topic! Complex of services - educational business!

To Individual Entrepreneurs & Small Business

Greetings!

Increasingly, small businesses need to develop educational products that will teach customers how to use certain products, services and goods. I offer you the development of just such - easy, online training courses that will appeal to customers and improve perception and sales. These online courses can be hosted directly on your site. In addition, regional representatives, partners and employees can be trained in the same way.

I propose (ready to develop more than 400 online course topics):

Development of content for an online course (courses), (text lectures; interactive slides, including SCORM standards; photographs; videos; tests, practical exercises, quests, etc.). It can be one course or a whole training complex, a series of courses. The specifics of your activity are taken into account. High quality design materials.

To form an offer (prices and terms), I need information:

1. What is the topic of the future online course (s)?
2. Who will be the target audience for this course (s)?
3. Technical information on the course (s) - goals and objectives, required level?
4. Desired volume of the course (courses), (in hours, minutes, A4 pages, etc.) (approximately)?
5. What format of the course (s) would you like to receive?
6. Any other additional services (website, distance learning system, etc.).

Based on the amount of work to be done, after providing the answers, I will be able to calculate the price and determine the time frame. Please write the answers to the above questions - aldem@coursemaker.icu. Working languages - Russian, English. There is a possibility of development in other languages.

To discuss the details, contact me in any available way:
